

Fisher & Paykel

1

Behind every product is a story and that story starts with you. Your kitchen is an expression of who you are and how you enjoy food with others. Our passion is creating better experiences that put the joy of food at the centre of your life. Eat, share, live life — we'll take care of the details.

We have been designing products since 1934 and have grown into a global company operating in 50 countries and manufacturing in the USA, Mexico, Italy, Thailand and New Zealand. Our design heritage is founded on a pioneering spirit and a culture of curiosity that has challenged conventional appliance design to consistently deliver products tailored to human needs. For us, legacy is about looking to the future while ensuring what we develop today is aligned to the fundamental principles of sustainable design. We are committed to ongoing research and development. Our culture is one of open innovation, which allows people to work collaboratively to find insights and ideas that connect with our customers and respect our planet.

Your kitchen is more than just a room; it is the heart and soul of your home. It's a space where you can share delight, fulfill a passion and taste the best life has to offer. Creating a feast for family and friends is one of life's simple pleasures. From our perspective, food needs to be more than just fuel, it needs to be delicious as well. Each of our products has been designed to bring out the chef in you, by making cooking easier more enjoyable. This is what drives us to do what we do — creating experiences that enhance the time we spend together.

We understand that our lives are becoming more complex. We believe in technology that is both leading edge and at the same time human. This approach has led to the development of refrigerators that think for themselves to keep food fresher, and ovens so smart they help clean themselves. Whether it's refrigerators that can change from cooler to freezer at the touch of a button or clothes washers that select the correct wash action for your load — above all we believe in insight-led design that is tailored to people's changing needs around the world.

Food is theatre. From mid week convenience to gourmet weekends, each meal is a performance and the kitchen is your stage. Celebrating great food and cooking from around the world is the show. From the soft crust of a freshly baked baguette to the comforting fragrance of a slow-cooked winter casserole — variety is the spice of life. Just as we seek quality and variety in our food, we desire the same of our kitchens. We are looking for unique appliances that combine innovation with reliability and performance. Savour the taste of your next meal in tomorrow's kitchen.

**Fisher & Paykel
Our Kitchen Blog**

Fisher & Paykel is excited to bring you Our Kitchen, a food blog produced by a group of friends at Fisher & Paykel who share a passion for all things food and cooking. Through delicious recipes and beautiful photography the blog imparts knowledge and advice, inspiring readers in their culinary endeavours. With varying experiences and backgrounds in cooking, every member of the Our Kitchen team brings to the table their own unique perspective on food. As a result we present a collection of recipes which appeal to inspiring foodies of all skills and interests.

Visit www.ourkitchen.fisherpaykel.com for more recipes and cooking ideas.

Frangipane Tart

1 Ingredients

For the pastry:
100g icing sugar
220g flour
40g cocoa
125g butter
2 egg yolks
2 tbsp milk or water

For the frangipane:
70g almonds
70g Brazil nuts
1 tbsp flour
125g butter
125g caster sugar
1 egg
1 tsp vanilla

Seasonal fruit (Strawberries used)

2 Method

Preheat your oven to 180°C, on fan bake.

To make the pastry, blend the very cold butter with the icing sugar, flour and cocoa in a food processor.

Beat the yolks with the milk/cold water and lightly pulse into the flour and butter mixture. Remove from the processor and knead a little on a floured surface to combine (do not over-mix).

Wrap in cling film and chill.

To make the frangipane, grind the almonds and brazil nuts to a breadcrumb consistency (not a fine powder).

Cream the butter and sugar, add the egg then fold in nuts and vanilla. Chill the mixture.

Roll the pastry (to approximately 2-3mm thick) and line a tart shell. Place in the freezer for 10 minutes.

Blind bake the tart shell in your oven for 10 minutes.

Reduce the oven temperature to 160°C.

Add the frangipane to the partially cooked tart shell.

Press in the fruit, which you can do in a pattern or haphazardly.

Bake for approximately 30 minutes or until the frangipane sets.

188

TEMPERATURE

COOK

Whether your preference in Hobs is gas, induction or ceramic, all our Hobs offer precise, consistent, state-of-the-art control. Our built-in ovens and freestanding cookers are designed with the full range of cooking requirements and temperatures, giving you greater flexibility. The most demanding and creative cook can enjoy cooking like a chef and will be thrilled with the flexibility and control of their new Fisher & Paykel range.

90cm Large Capacity Built-in Ovens

Large capacity 90cm cookware is designed for superior performance and to meet a demanding, professional standard in terms of size, quality and craftsmanship.

1 Innovative

Illuminated halos which surround the temperature and function dials tell you if the oven is on and whether or not it has reached the selected temperature.

2 Convenient

Simply set to self-clean and the oven will take care of any grease or grime, reducing it to ash that's easily wiped away with a damp cloth.

3 Ergonomic

Smooth and balanced dial movement allows for easy and precise temperature adjustment.

4 Intuitive

Illuminated function icons, which disappear into the background when off, provide clear user control.

5 Responsive

A spacious cavity designed to accommodate more than a regular oven, allows both side by side and double layered cooking.

6 Precise

Professional quality rotisserie roasts meat to healthy and succulent perfection.

7 Efficient

A powerful 4050W grill gives you an even and fast result, locking in all the flavours and nutrients.

8 Safe

Features cool touch doors that are made of 4 panes of glazed glass and its own cooling system to ensure it's safe to touch.

FUNCTION

200

TEMPERATURE

60cm Built-in Ovens

Sharing similar features as our larger Built-in Ovens, these 60cm wide ovens will provide years of culinary enjoyment.

- 1 Innovative**
Up to nine functions to choose from to give you flexibility and complete control. Choose the oven function that best suits your dish.

 - 2 Convenient**
Simply set to self-clean and the oven will take care of any grease or grime, reducing it to ash that's easily wiped away with a damp cloth (OB60S9DEP models only).

 - 3 Ergonomic**
Easy-glide telescopic oven runners slide in and out effortlessly, while six shelf positions give you a vast range of options for organising the interior of the oven.

 - 4 Intuitive**
Illuminated halos which surround the temperature and function dials tell you if the oven is on and whether or not it has reached the selected temperature. Each function is pre set to the temperature you are likely to use (OB60S9 models only).

 - 5 Responsive**
The 3000W Grill provides rapid and consistent results, quickly searing food to seal in flavours and nutrients.

 - 6 Precise**
An electronic thermostat controls temperature variation when cooking to ensure consistent temperatures throughout the oven (OB60S9 models only).

 - 7 Safe**
Features cool touch doors that are made of up to 4 panes of glass (3 on non-pyrolytic models) and its own cooling system to ensure it is safe to touch.
-

Freestanding Cookers

Our freestanding cookers give you the flexibility to prepare several courses simultaneously. With extra large or double ovens, combined with a 5 or 6 burner gas hob, the clean lines in glass and stainless steel complement the style and elegance of any kitchen.

-
- 1 Innovative**
Professional performance, offering up to eight oven functions from fan grill to traditional bake and fan forced – perfect for any culinary requirements.

 - 2 Convenient**
The door and its inner pane of glass can be removed for easy, hassle-free cleaning and the storage drawer minimises clutter for all oven accessories.

 - 3 Ergonomic**
Streamlined trivets let you slide pots and pans without lifting them.

 - 4 Precise**
Clear, easy-to-use dials give you exceptional control over cooking temperatures.

 - 5 Efficient**
A powerful grill gives you a fast and even result, locking in all the flavours and nutrients.
-

Gas Hobs

For chefs who prefer the conventional method of cooking, Fisher & Paykel have introduced a range of smart features that make cooking with gas easier, quicker and more convenient than ever before.

-
- 1 Innovative**
Our unique Innovalve™ technology allows you to adjust the flame with unprecedented 180 degree gas valve rotation. Most hobs only offer 70 degree rotation (CG905DWACX1 only).
 - 2 Convenient**
Fisher & Paykel Hobs feature a wide range of burner sizes and power for everything from a slow simmer to a intense heat for steaks and stir-fries.
 - 3 Responsive**
Indicator lights show which burners are in use and alerts you if the gas shuts down (CG905DWACX1 only).
 - 4 Efficient**
Durable heavy-duty cast iron trivets, hard wearing for a long life.
 - 5 Safe**
If the flame is accidentally extinguished, the gas automatically turns off.
 - 6 Reliable**
All Fisher & Paykel gas hobs feature electronic ignition. It is quick, reliable and safe.
-

Induction Hobs

Traditionally we cook by generating heat from one source, such as a flame, and conducting it to another. The Fisher & Paykel Induction Hob works on a different principle. The Hob itself produces electromagnetic vibrations which induce the pot or pan to generate its own heat. The results are shorter heat up times, greater precision and a safer cooking surface.

- 1 Innovative**
Induction cooking means when you change the heat setting it adjusts almost instantly.
 - 2 Convenient**
The intelligent timer lets you activate any combination of cooking zones. Or use the minute minder to manage foods that require precision in cooking.
 - 3 Ergonomic**
Soft touch controls are simple to use and provide great precision. The Hobs are perfectly flat so the surface can be used as an extension of your preparation area.
 - 4 Responsive**
The special PowerBoost function delivers instant, intense heat when you need it. The Hob also has a GentleHeat function for slow, continuous simmering.
 - 5 Safe**
The Hob will alert you if it's turned on without a pot or pan on it, and will switch itself off if you don't respond. The pan detection system switches the Hob off if the pan being used isn't suitable for induction cooking. It also features a parental lock as a safety precaution for children.
 - 6 Eco friendly**
We use ceramic glass in the production of our induction hobs. Our glass is eco-friendly, not using any arsenic or heavy metals in the manufacturing process.
-

Ceramic Hobs

Our ceramic Hobs have a range of built-in features that make cooking easier, while at the same time giving you greater control.

- 1 Innovative**

Ceramic Hobs come with four or five element sizes for cooking flexibility. The auto heat function gives a boost of power to boil the pan quickly, then intelligently reduces to your chosen setting.
- 2 Convenient**

Flat ceramic surfaces for easy cleaning. The intelligent timer lets you activate any combination of cooking elements, or simply use it as a minute minder.
- 3 Ergonomic**

The Touch&Slide is perfectly flat so the surface can be used as an extension of your preparation area.
- 4 Intuitive**

Your choice of classic knob controls or perfectly flat Touch&Slide functionality.
- 5 Responsive**

These Hobs have exceptionally fast heating elements which provide precise temperature control from a rapid boil to an extremely low simmer.
- 6 Safe**

After use, hot surface indicators glow until the surface is safe to touch. In addition, the Touch&Slide Hob will turn off if something spills over the controls.
- 7 Eco friendly**

We use ceramic glass in the production of our ceramic hobs. Our glass is eco-friendly, not using any arsenic or heavy metals in the manufacturing process.

OB90, OB60, OR120, OR90 models

Oven Light: Remains lit while the oven is in use, but can also be used independently from the other cooking functions.

Bake: Heat is provided from the upper and lower elements. A traditional cooking mode, suitable for single shelf cooking of items like cakes, delicate items like sponges, custard tart and crème brûlée.

Fan Bake (excludes OB60HCEX2, OB60HDEX2 models): The oven fan circulates hot air from upper and lower elements and distributes it around the cavity. Food browns more quickly, great for crisping pastry. Suitable for robust items like cookies, scones and muffins.

Classic Bake: Uses the heat from the lower element only. This is a traditional cooking mode which is suitable for recipes that were developed in older ovens. For best results, cook on only one shelf at a time. Perfect for foods that require delicate cooking and have a pastry base, like custard tarts, quiches and cheesecake or anything that does not require direct heat and browning on the top surface.

Pastry Bake / Fan Forced with Lower Heat (OB90S9M, OB60SCTX3 models only): The lower heating element and fan provide outstanding cooking performance.

Roast: A two step programme that has been developed to help you cook delicious roasts effortlessly. This function is a combination of grill and bake, grilling your food for the first 20 minutes it then bakes at the set temperature for the rest of your cooking time. This sears the meat to keep in the juices.

Grill: The grill element delivers heat for fast, healthy grilling. Perfect for tender meat cuts, toasting and crisping.

Fan Grill: The oven fan circulates hot air from the top element for high speed grilling and produces food with a finish that is similar to a rotisserie. Food is crisp and brown on the outside while the inside remains moist and tender.

Fan Forced: A very flexible method of cooking. A concealed element surrounding the fan at the rear of the oven heats air which is then distributed evenly around the cavity. This is the ideal mode for multi-shelf cooking and complete oven meals.

Defrost: The oven fan circulates air around the oven, speeding up the defrosting process by up to 30%.

Warm (excludes OB90S9M, OB60S9D, OB60SCTX3, OB60HCEX2, OB60HDEX2 models): Use this function to keep cooked food hot and to warm plates and serving dishes.

Warm (OB90S9M, OB60S9D models only): Use this function to keep cooked food hot and to warm plates and serving dishes.

Pyrolytic Self Clean (OB90S9M, OB60S9DEPX1 models only): During the self clean cycle, the oven reaches higher temperatures than it does for cooking, breaking down soil and grease deposits which can be wiped away with a damp cloth.

Rotisserie (OB90S9M model only): A delicious way to cook meat and poultry. The slowly rotating food is basted continuously in its own juices, making it tender on the inside and well browned and full of flavour on the outside.

Pastry Assist (OB60SCTX3 model only): The lower element and the oven fan are on. This function is for foods that require a higher temperature at the bottom than the top.

Turbo Grill (OB60SCTX3 model only): Powerful 3000W element delivers intense heat over the whole width of the oven. Fast, efficient grilling.

Defrost/Warm (OB60SCTX3 model only): The lower heating element and oven fan provide the ability to defrost and will keep food warm within 75°C and 100°C.

Sabbath mode (OB90S9M, OB60S9DEX1, OB60S9DEPX1 models only): This setting is designed for religious faiths that observe a 'no work' requirement on the Sabbath. It is used in conjunction with the **Bake**  function.

90cm 5 Burner Gas Hob
 CG905DWACX1 **Kitchen Studio Exclusive**
 Stainless Steel
 Designer

Dimensions: W914 x D546 x H76 mm

Burners: 5 including 1 wok burner

Burner ratings: 0.2 kW Auxiliary burner
 1.9 kW Semi rapid burner
 5.5 kW Wok burner
 2.0 kW Rapid burners

Burner ratings shown for Natural Gas connections only

Performance: Innovolve™ technology, Electronic ignition, LPG and Natural gas compatible, Cast iron trivets

Cleaning: Easy clean hob design, Quick component removal

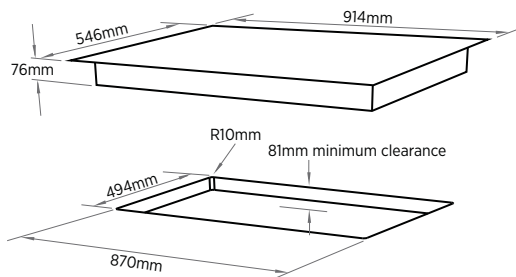

Safety: Auto re-ignition system, 4 litres Spill containment, Flame failure device

Controls: Cast alloy satin chrome control dials, Burner indicator lights/
 Fault indication, Permanent laser etched graphics

AMP Draw: 10A

Supply voltage: 230 - 240

Accessories: N/A

Note: The appliance should be installed in a room or space with an air supply in accordance with BS5440:2 2000. Please check installation instructions for required clearances around cooktop.

2 YEAR WARRANTY

VENT

Kitchen inspiration doesn't exist in a vacuum, but simple and responsive extraction is always important. Built to perform, our Cooker Hoods effectively capture and eliminate cooking odours, vapour or steam. Each has been designed as the perfect partner products to our Hobs and include sleek black glass with brushed stainless steel to complement any modern kitchen.

Fisher & Paykel

VentSurface Features

VentSurface has been designed to provide a simple and efficient means of removing steam and cooking odours from the kitchen through automatic adjustment.

- 1 Innovative**
Once set to automatic, the clever technology is alert for the need to respond the moment you start cooking.

 - 2 Convenient**
The sheer reflective black glass finish, makes greasy, unsightly filter traps a thing of the past.

 - 3 Responsive**
Clever sensing allows it to constantly adjust to capture and eliminate rising cooking odours, vapour or steam.

 - 4 Efficient**
Perimeter extraction technology creates a high velocity vacuum that is more effective over a wider area than traditional rangehoods and far quieter than conventional technology.

 - 5 Intuitive**
A small range of simple, soft touch buttons gives you control of the technology inside.
-

Cooker Hoods

Banish steam, smoke and lingering smells. Fisher & Paykel Cooker Hoods offer a selection of fan speeds and clever features that quietly and efficiently remove them all.

1 Convenient

An interior, wipeable plate makes cleaning easier (HC120DCXB1, HC90DCXB1, HC90CGX1, HC60DCXB1). Multi-layered filters trap grease effectively. Designed for easy removal, the filters are easy to clean and are dishwasher safe.

2 Responsive

The sleek touch control panel responds to the touch of your finger. Halogen lights provide superb illumination over the entire cooking surface. The dimmable light feature enables you to create the perfect level of light (HC120DCXB1, HC90DCXB1, HC60DCXB1 only).

3 Efficient

Odours can linger in the kitchen well after cooking. The practical timer feature keeps the canopy working for up to fifteen minutes before it automatically turns itself off (HC120DCXB1, HC90DCXB1, HC90CGX1, HC60DCXB1).

Fisher & Paykel

120cm VentSurface Island Canopy
 H1120MXB1 **Kitchen Studio Exclusive**

SETT

COOL

In any kitchen an even temperament as well as temperature is essential. Technology that adjusts to your needs is our focus. The Active Smart™ range of refrigerators continually adjusts the flow of cold air into your fridge and freezer by sensing daily use and climatic conditions, ensuring that an optimum temperature is always maintained to keep food fresh.

CoolDrawer

The world's first multi-temperature CoolDrawer can be set to freezer, chill, fridge, pantry or wine cooler mode, allowing you to adapt the CoolDrawer to suit your changing lifestyle needs. The convenient drawer design provides flexibility of location, to optimise kitchen and entertainment spaces.

-
- 1 Innovative**
Multi-temperature CoolDrawer is a world first in refrigeration technology.

 - 2 Convenient**
Five temperature settings can be tailored to the needs of your food.

 - 3 Ergonomic**
Easy access at waist-height, with smooth running drawers.

 - 4 Intuitive**
Easy to use electronic interface can change the CoolDrawer temperature at the push of a button.

 - 5 Flexible**
Complements your existing refrigeration and enhances your kitchen design to suit your lifestyle.

 - 6 Precise**
Highly engineered finishing ensures a 4mm clearance between front panels as demanded by professional cabinet-makers.

Active Smart™ Refrigerators

Active Smart™ works with you by sensing how you use the fridge and then adjusting the settings accordingly. A range of luxury features complete the picture.

1 Innovative

Active Smart™ continuously adjusts the flow of cold air into your fridge and freezer by sensing your daily use and climatic conditions, ensuring it maintains optimum temperatures throughout the fridge.

2 Convenient

Includes built-in ice maker and chilled filter water on tap, all with no impact on valuable useable space. A Bottle Chill for when friends drop in unannounced (selected models).

3 Ergonomic

Quality extension runners allow you to fully slide the freezer and vegetable bins in and out, for easy loading and unloading.

4 Intuitive

The Humidity Control System lets you create the perfect 'micro-climate' in each storage bin for specific fruits and vegetables, keeping them fresh for longer.

5 Precise

An optional surround kit for selected models gives the refrigerator a clean, built-in look.

6 Efficient

Alarms on the refrigerator and freezer alert you if the door has been left open.

7 Safe

Secure glass shelving prevents drips and spills falling on the food below.

8 Sabbath mode

Features Fisher & Paykel's Sabbath mode to observe requirements of certain religious faiths.

CLEAN

Why shouldn't cleaning up be as enjoyable as cooking itself? The DishDrawer® range is designed to make life easy. Wide, tall, double and single drawer options allow you to choose the combination that works for your lifestyle. The range can easily be concealed behind kitchen cabinetry to seamlessly blend in with your kitchen and the ergonomic design requires less movement to open, load and close — minimising bending. There is also a selection of conventional dishwashers to complement the range.

DishDrawer® Wide

A simple solution for entertainers and large families, the DishDrawer® Wide is an enlarged version of the standard DishDrawer®. At 90cm wide it accommodates nine place settings, has fully adjustable racking and the tub design easily fits large platters, chopping boards, pans and roasting dishes. Also available in an integrated model that blends in with your kitchen cabinetry.

- 1 Innovative**
Before washing begins, detergent goes through the world's first flow through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.
- 2 Convenient**
Taller than the standard DishDrawer® so you can fit large plates up to 31.5cm in diameter. Racking is designed to hold long utensils and can fold away to free up space.
- 3 Ergonomic**
As easy to open and close as a kitchen drawer, loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.
- 4 Efficient**
A choice of nine wash programmes, including an Eco option to minimise water and energy usage.
- 5 Safe**
Includes a key lock and child safety lock.
- 6 Eco friendly**
AAA rated for energy efficiency, cleaning and drying performance.

DishDrawer®

We created the DishDrawer® over a decade ago and revolutionised the way we cleaned our dishes. We continue to design ergonomically superior DishDrawer®s that require less movement to open, load and close and require no bending. We have also found new ways to make dishwashing even easier by increasing the height of the drawer to allow for even larger plates and platters.

-
- 1 Innovative**
World first design and configuration.

 - 2 Convenient**
The double DishDrawer® lets the user match the wash programme to the exact load type in each drawer.

 - 3 Ergonomic**
As easy to open and close as a kitchen drawer, loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.
Single drawers can be placed in the most convenient locations, minimising unnecessary bending.

 - 4 Intuitive**
Before washing begins, detergent goes through the world's first flow through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

 - 5 Efficient**
A choice of nine wash programmes, including an Eco option to minimise water and energy usage.

 - 6 Safe**
Includes a key lock and child safety lock.

 - 7 Eco friendly**
AAA rated for energy efficiency, cleaning and drying performance.

Our products are only intended for normal domestic use in accordance with the Product's User Guide. Any defects arising from any other use are not covered.

Important Notice of Disclaimer: Our brochure contains information on a wide subject of products which we manufacture and/or sell internationally. Some particular products, models or sizes which are detailed in this brochure may not be available for sale and purchase in your area or country, if available the product may have different options to those depicted in the brochure. Before agreeing to purchase a particular product by reference to this brochure please check its availability and accuracy of its description.

This brochure is printed on paper made from sustainable forests using elementary chlorine-free pulp and vegetable based ink. This brochure represents a green choice by Fisher & Paykel to participate in the growing movement towards social responsibility.
